Define the Problem Statements

Date	28 October 2026	Team ID	EN25CS3011166
Project Name	**Health360: Comprehensive Healthcare Risk & Disease Analysis**	Maximum Marks	2 Marks

Customer Problem Statement Template:
Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face.

I AM	I'M TRYING TO	BUT	BECAUSE	WHICH MAKES ME FEEL
Describe customer with 3-4 key characteristics - who are they?	List their outcome or "job" they care about - what are they trying to achieve?	Describe what problems or barriers stand in the way - what bothers them most?	Enter the "root cause" of why the problem exists - what needs to be solved?	Describe the emotions from customer's point of view - impact on them emotionally?
A healthcare analyst / medical practitioner / clinician	Identify core cardiovascular risk factors across age groups and lifestyle habits.	Complex and scattered medical data makes it difficult to spot high-risk patient segments quickly.	Traditional reports lack unified multi-variable visualization and standardized scaling.	Overwhelmed, constrained, & anxious about missing indicators.

Problem Statements Summary Table

PS ID	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A healthcare analyst / medical practitioner	Identify core cardiovascular risk factors across age groups and lifestyle habits.	Complex and scattered medical data makes it difficult to spot high-risk patient segments quickly.	Traditional reports lack unified multi-variable visualization and standardized scaling.	**Overwhelmed & Constrained**
PS-2	A hospital administrator / researcher	Monitor overall patient health metrics and lifestyle correlations (smoking, alcohol, BMI).	Data aggregation inconsistencies distort the comparative risk scale across cohorts.	Raw patient records lack unified interactive single-page dashboard tracking.	**Frustrated with bad insights**
