PROJECT DEVELOPMENT PHASE

Performance Test & Analytics Report

Date	28 October 2026	**Team ID / En. No.**	EN25CS3011166
Project Name	Health360 - Smart Healthcare Risk Analytics	**Maximum Marks**	100

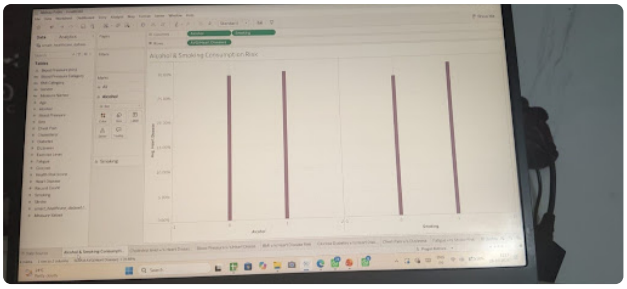

PROJECT PERFORMANCE TESTING GUIDELINES

Instructions: Project team shall fill the following information in the model performance testing template along with rendered visualizations, data preprocessing parameters, and story designs.

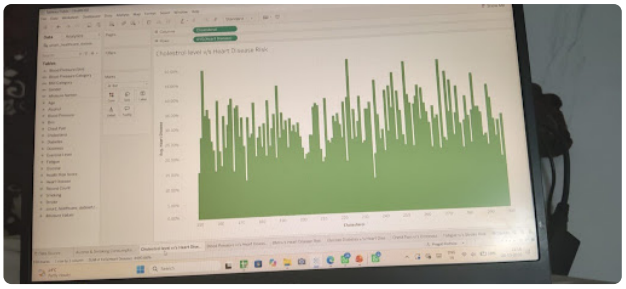

PERFORMANCE TESTING PARAMETERS

S.No.	Parameter	Screenshot / Values / Implementation Details
1	**Data Rendered**	**Dataset:** `smart_healthcare_dataset.csv` **Total Records:** 24,800 Marks rendered across worksheets. **Key Attributes:** Age, Alcohol, Blood Pressure, BMI, Cholesterol, Diabetes, Exercise Level, Glucose, Heart Disease Risk, Stroke Risk.
2	**Data Preprocessing**	• Binned Continuous Variables: *Blood Pressure (bin)*, *BMI Category*. • Handling missing fields & null values using Tableau default aggregations. • Aggregations applied: `AVG(Heart Disease)`, `AVG(Health Risk Score)`.
3	**Utilization of Filters**	• **Global Interactive Filters:** Glucose Filter, Exercise Level. • **Dimension Bins:** BMI Category Filter & Gender Segmentation. • Action filters enabled across worksheets for dynamic dashboard highlighting.
4	**Calculation Fields Used**	• `AVG(Heart Disease)` = Heart Disease Risk Index • `AVG(Health Risk Score)` = Health Risk Metric • `Record Count` & Custom Bin categorizations.
5	**Dashboard Design**	**No. of Visualizations / Graphs:** 8 Visualizations Includes Tiled layout with Age-Based Trends, Patient Heatmap, BMI & BP Risk Charts, Alcohol/Smoking Consumption bar plots.
6	**Story Design**	**No. of Visualizations / Story Points:** 1 Story Board Structured story points covering primary risk factors to composite health risk index.

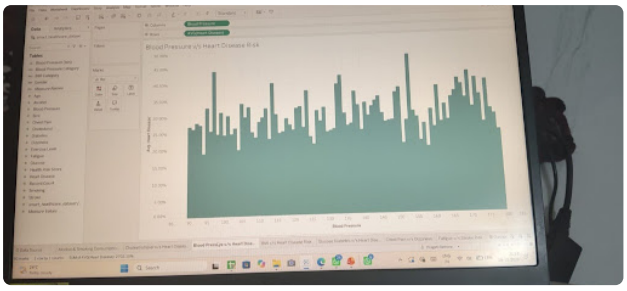

VISUALIZATIONS & DASHBOARD SCREENSHOTS

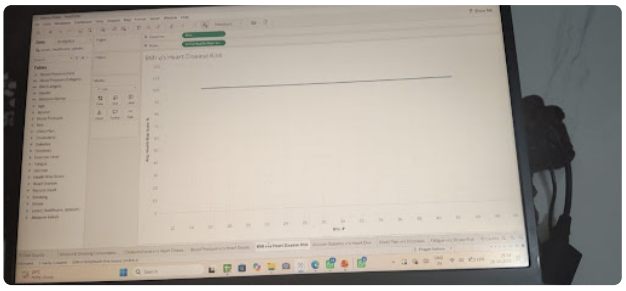

1. Alcohol & Smoking Consumption Risk

2. Cholesterol Level vs Heart Disease Risk

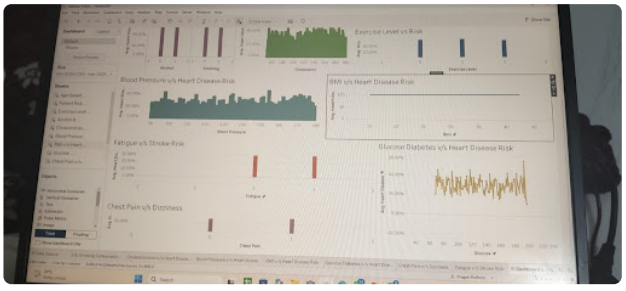

3. Blood Pressure vs Heart Disease Risk

4. BMI vs Heart Disease Risk

5. Glucose Diabetes vs Heart Disease Risk

6. Integrated Dashboard - Health360 Overview
